Flexibility & Connectivity

Experlogix CloudConnect integration provides 100% flexibility to write to any table including custom tables in Business Central.

Low-Code/No-Code Platform

Complete integration with Dynamics 365 Business Central Jobs, Quotes and Sales Orders. Minimize customizations with comprehensive yet simple-to-use capabilities available out-of-the-box.

Real-Time Visualization

Harness our powerful image rendering technology to see product option changes the moment selections are made.

Streamline Sales Process

Launch the configurator from any job, sales order, or quote and accelerate your sales cycle, increase efficiency and deliver accurate prices at the highest possible margins every time.

Intelligent Process Designer

Transform and control configured data. Integrate and map fields to populate and include detailed information. Write to a production BOM header or Sales line and easily include item attributes.

Advanced Manufacturing Capabilities

Automatically turn configured orders into BOM or routings, to streamline your quote-to-manufacture processes.

Linked Configurations

All Configurations are saved and linked to an order number and can be changed and updated as needed.

Dynamics Updates

Take advantage of new Dynamics releases with no customizations required! Rest assured we support the new version every time – there's never a delay.
