

for Microsoft Commerce

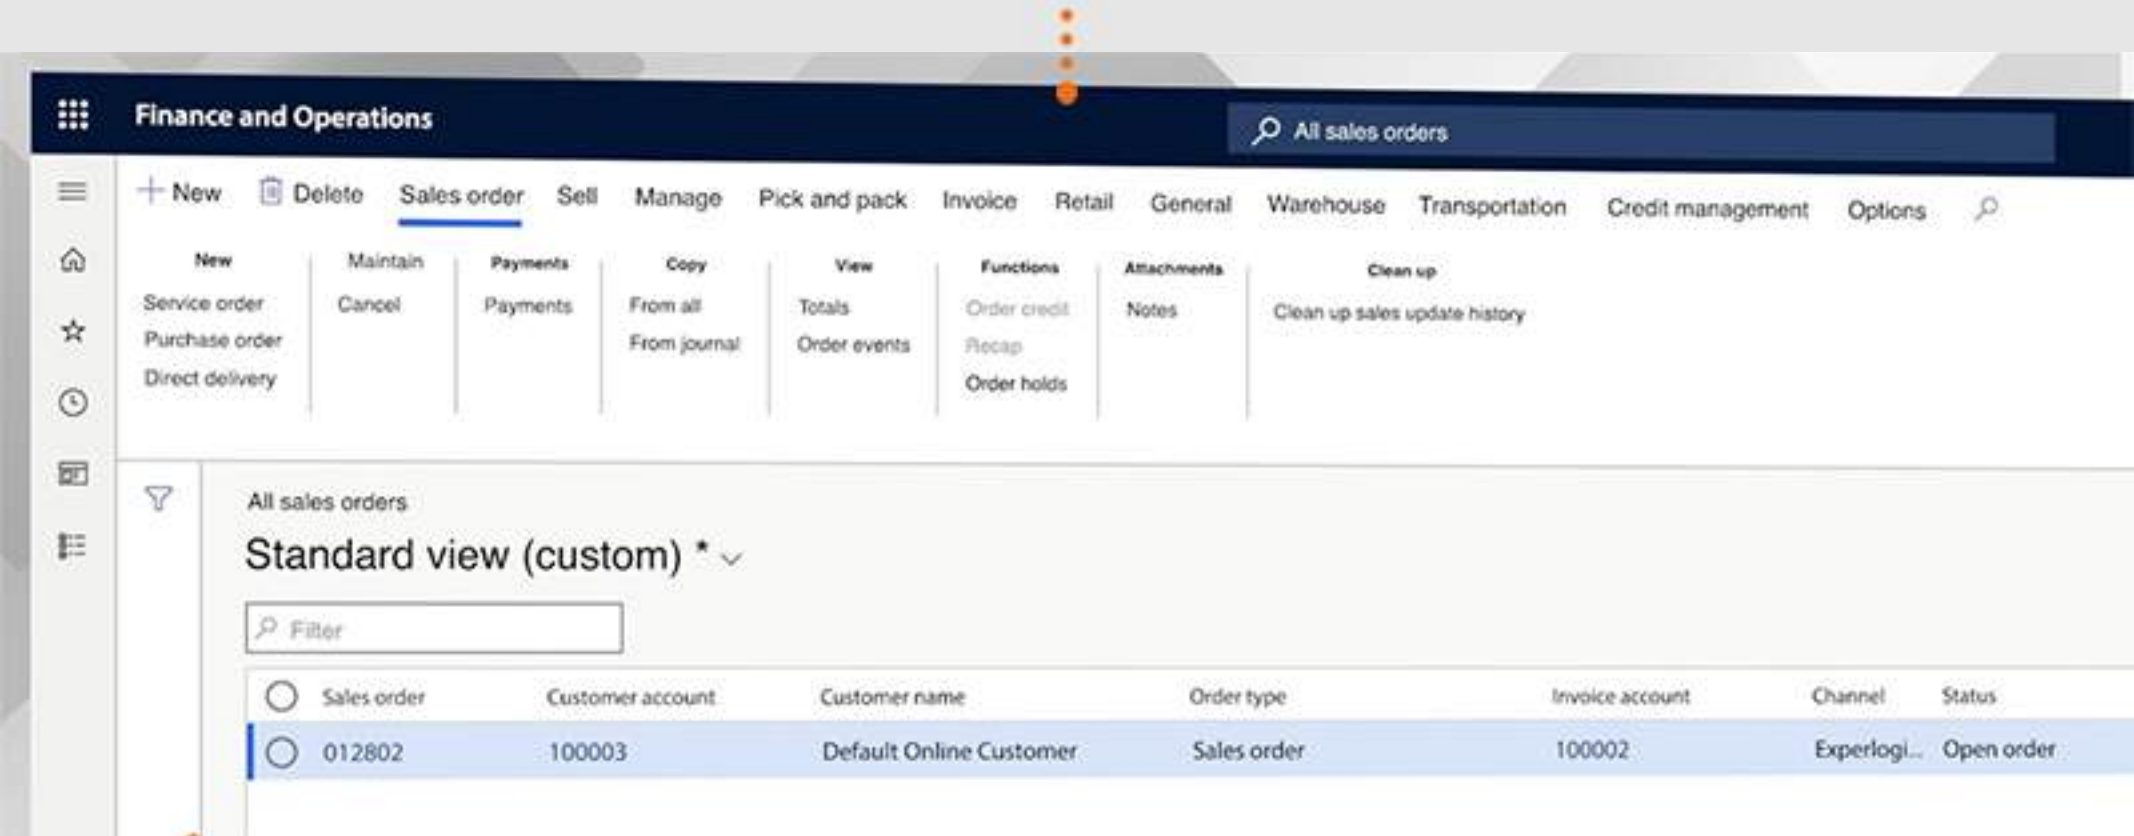

Offer a rich B2B or B2C ecommerce experience with Experlogix configure, price, quote software for Microsoft Dynamics 365 Commerce.

Experlogix increases online shopper conversion rates and accelerates sales through an intuitive guided selling and product visualization experience for your buyers.

Logic-based rules makes selling even the most complex products simple for online shoppers. When the shopping cart is complete, Experlogix completes the buying process with a push from Dynamics 365 Commerce to D365 Finance & Operations to kick off manufacturing processes.

Experlogix CPQ infuses product & pricing intelligence within Dynamics 365 Commerce to provide an exceptional e-commerce experience. Visit Experlogix.com to schedule a demo.
